

LIFE IN THE YEAR 2100

1. What will life be like in the year 2100? Look at the table below and write down any ideas you can think of for the categories provided:

	2100	2000
1. Population.		
2. Advances in technology.		
3. Quality of life.		
4. Housing.		
5. Climate.		
6. Health and medicine.		

2. Watch a video with pupils from the UK in 1966 talking about what they think life would be like for them in the year 2000. Take notes for each of the categories in 1 and complete the table.

3. Are the students optimistic about the future? How about your predictions for 2100?

4. Write down your own predictions for some other categories. Be ready to share your ideas!
